KUBUS

With a sharp sense of contemporary functionalist style, Mogens Lassen designed the iconic Kubus candleholder in 1962, as a piece once reserved solely for family and close architect colleagues. The Kubus is still crafted in Denmark and amongst architects and design connoisseurs it has achieved the status of a modern international design icon.

Mogens Lassen 1962

Lacquered metal in black or white, nickel-plated metal, copper-plated metal or brass-plated metal

MAINTENANCE
The Kubus & Line candleholders and Kubus Bowls in metal are hand- polished, therefore the surfaces of each product will not be identical. Nickel, copper and brass are materials that patinate which means that the surface of the products will gradually change over time. If needed, nickel and copper can be polished with a suitable polishing liquid. Brass however should NOT be polished.
